The Age of Innocence Edith Wharton 2002-03-21 The Age of Innocence marks the pinnacle of Edith Wharton's career as one of the finest American novelists of her era. The narrative follows Newland Archer, of upper-crust 1870s New York, whose passion for the mysterious Countess Ellen Olenska leads him to question the very foundations of his way of life. Written in the aftermath of World War I, the novel explores the psychological and cultural paradoxes of desire in a world undergoing unprecedented transformations. This edition includes a critical introduction and a range of appendices that contextualize the novel in terms of its modernist themes and tensions.

Encountering Pennywise Whitney S. May 2022-10-17 Contributions by Amylou Ahava, Jeff Ambrose, Daniel P. Compora, Penny Crofts, Keith Currie, Erin Giannini, Whitney S. May, Fernando Gabriel Pagnoni Berns, Diganta Roy, Hannah Lina Schneeberger, Shannon S. Shaw, Maria Wiegel, and Margaret J. Yankovich First published in 1986, Stephen King's novel IT forever changed the legacy of the literary clown. The subject of a TV miniseries and a two-part film adaptation and the inspiration for a resurgence of the evil clown figure in popular culture, IT's influence is undeniable, yet scholarship to date is almost exclusively devoted to the adaptations rather than the novel itself. Encountering Pennywise: Critical Perspectives on Stephen King's "IT" considers the pronounced cultural fluctuations of IT's legacies by centering the novel within the theoretical frameworks that animate it and ensure its literary and cultural persistence. The collection explores the ways the novel, so like its antagonist, replicates (or disavows) the icons of various canons and categories in order to accomplish specific psychological and cultural work. Gathering the work of scholars from diverse professional and disciplinary vantage points, editor Whitney S. May has curated an anthology that spans discussions of American surveillance culture, intergenerational conflict, the legacies of settler colonialism and Native American representation, serial-killer fanaticism, and more. In this volume, we read the protagonists' constellations of countermoves against Pennywise as productive outlines of critique effectuated by the richness of the clown's reflective power. The essays are therefore thematically arranged into a series of four categories of "counter"—countercurrents, countercultures, counterclaims, and counterfeits—where each supplies a specific critical lens through which to view Pennywise's disruptions of both culture and cultural critique.

Arab Women's Lives Retold Nawar Al-Hassan Golley 2007-10-18 Examining late twentieth-century autobiographical writing by Arab women novelists, poets, and artists, this anthology explores the ways in which Arab women have portrayed and created their identities within differing social environments. Even as the collection dismantles standard notions of Arab female subservience, the works presented here go well beyond the confines of those traditional boundaries. The book explores the many routes Arab women writers have taken to speak to each other, to their readers, and to the world at large. Drawing from a rich body of literature, the essays collectively attest to the surprisingly lively and committed roles Arab women play in varied geographic regions, at home and abroad. These recent writings assess how the interplay between individual, private, ethnic identity and the collective, public, global world of politics has impacted Arab women's rights.

Orientalism and Representations of Music in the Nineteenth-Century British Popular Arts Claire Mabilat 2017-07-05 Representations of music were employed to create a wider 'Orient' on the pages, stages and walls of nineteenth-century Britain. This book explores issues of orientalism, otherness, gender and sexuality that arise in artistic British representations of non-European musicians during this time, by utilizing recent theories of orientalism, and the subsidiary (particularly aesthetic and literary) theories both on which these theories were based and on which they have been influential. The author uses this theoretical framework of orientalism as a form of othering in order to analyse primary source materials, and in conjunction with musicological, literary and art theories, thus explores ways in which ideas of the Other were transformed over time and between different genres and artists. Part I, *The Musical Stage*, discusses elements of the libretti of popular musical stage works in this period, and the occasionally contradictory ways in which 'racial' Others was represented through text and music; a particular focus is the depiction of 'Oriental' women and ideas of sexuality. Through examination of this collection of libretti, the ways in which the writers of these works filter and romanticize the changing intellectual ideas of this era are explored. Part II, *Works of Fiction*, is a close study of the works of Sir Henry Rider Haggard, using other examples of popular fiction by his contemporary writers as contextualizing material, with the primary concern being to investigate how music is utilized in popular fiction to represent Other non-Europeans and in the creation of orientalized gender constructions. Part III, *Visual Culture*, is an analysis of images of music and the 'Orient' in examples of British 'high art',

illustration and photography, investigating how the musical Other was visualized.

Selling Beauty Morag Martin 2009-10-05 An "enjoyable" history of the French cosmetic industry and the evolution of beauty standards and commercial culture during a revolutionary era (European

History Quarterly). As the French citizenry rebelled against the excesses of the aristocracy, there was a parallel shift in consumer beauty practices. Powdered wigs, alabaster white skin, and rouged cheeks disappeared in favor of a more natural and simple style. *Selling Beauty* challenges expectations about past fashions and offers a unique look into consumer culture and business practices. Morag Martin introduces readers to the social and economic world of cosmetic production and consumption, recounts criticisms against the use of cosmetics from a variety of voices, and examines how producers and retailers responded to quickly evolving fashions. Martin shows that the survival of the industry depended on its ability to find customers among the emerging working and middle classes. But the newfound popularity of cosmetics raised serious questions. Critics—from radical philosophes to medical professionals—complained that the use of cosmetics was a threat to social morals and questioned the healthfulness of products that contained arsenic, mercury, and lead. Cosmetic producers embraced these withering criticisms, though, skillfully addressing these concerns in their marketing campaigns, reassuring consumers of the moral and physical safety of their products. Rather than disappearing along with the Old Regime, the commerce of cosmetics, reimagined and redefined, flourished in the early nineteenth century—as political ideals and Enlightenment philosophies radically altered popular sentiment.

'Multiple Wives, Multiple Pleasures' examines these works closely, often establishing fresh contexts for many of the more well-known nineteenth century harem pictures, and often providing a consideration of lesser-known harem pictures that have been rarely published until now.

Humoring the Other Mounir Sanhaji 2018-10-09 This book offers an inquiry into the ways in which entertainment discourse extends beyond entertainment and its initial humorous function due to its political and ideological underpinnings. Rather than considering entertainment discourse as “just for fun”, this book justifies the importance of taking it seriously. Humorous features in entertainment discourses can trivialize some stereotypical moments, and, in doing so, encourage viewers to downplay the seriousness of the events they are watching. In other words, these stereotypical images are camouflaged and mitigated by the inclusion of humorous elements and imaginative images, which can lead the audience to perceive them as natural scenes that do not deserve criticism. Embedding banalities within entertainment discourses remains an effective strategy that drives the audience to laugh, meaning that they fail to detect the embedded ideologies regarding different cultures and identities. This confirms the fact that “small talk” can often become “big talk”.

Seeing the American Woman, 1880-1920 Katherine H. Adams, 2011-12-08 From 1880 to 1920, the first truly national visual culture developed in the United States as a result of the completion of the Pacific Railroad. Women, especially young and beautiful ones, found new lives shaped by their participation in that visual culture. This rapidly evolving age left behind the “cult of domesticity” that reigned in the nineteenth century to give rise to new “types” of women based on a single feature—a type of hair, skin, dress, or prop—including the Gibson Girl, the sob sister, the stunt girl, the hoochy-coochy dancer, and the bearded lady. Exploring both high and low culture, from the circus and film to newspapers and magazines, this work examines depictions of women at the dawn of “mass media,” depictions that would remain influential throughout the twentieth century.

Paolina's Innocence Larry Wolff 2012-10-10 In the summer of 1785, in the city of Venice, a wealthy 60-year-old man was arrested and accused of a scandalous offense: having sexual relations with the 8-year-old daughter of an impoverished laundress. Although the sexual abuse of children was probably not uncommon in early modern Europe, it is largely undocumented, and the concept of “child abuse” did not yet exist. The case of Paolina Lozaro and Gaetano Franceschini came before Venice's unusual blasphemy tribunal, the Bestemmia, which heard testimony from an entire neighborhood—from the parish priest to the madam of the local brothel. Paolina's Innocence considers Franceschini's conduct in the context of the libertinism of Casanova and also employs other prominent contemporaries—Jean-Jacques Rousseau, Carlo Goldoni, Lorenzo Da Ponte, Cesare Beccaria, and the Marquis de Sade—as points of reference for understanding the case and broader issues of libertinism, sexual crime, childhood, and child abuse in the 18th century.

Imperialism P. J. Cain 2001 The philosopher W.B. Gallie argued many years ago that there could be no simple definition of words such as 'freedom' because they embodied what he called 'essentially contested concepts'. They were words whose meaning had to be fought over and whose competing definitions arose out of political struggle and conflict. Imperialism, and its close ally, colonialism, are two such contested concepts. This set will give readers an insight in to the main lines of debate about the meanings of imperialism and colonialism over the last two centuries.
