*The Middle East and Brazil Paul Amar 2014-07-15 Connections between Brazil and the Middle East have a long history, but the importance of these interactions has been heightened in recent years by the rise of Brazil as a champion of the global south, mass mobilizations in the Arab world and South America, and the cultural renaissance of Afro-descendant Muslims and Arab ethnic identities in the Americas. This groundbreaking collection traces the links between these two regions, describes the emergence of new South-South solidarities, and offers new methodologies for the study of transnationalism, global culture, and international relations.*

*The Oxford Handbook of Contemporary Middle Eastern and North African History Jens Hanssen 2020-11-30 The Oxford Handbook of Contemporary Middle-Eastern and North African History critically examines the defining processes and structures of historical developments in North Africa and the Middle East over the past two centuries. The Handbook pays particular attention to countries that have leapt out of the political shadows of dominant and better-studied neighbours in the course of the unfolding uprisings in the Middle East and North Africa. These dramatic and interconnected developments have exposed the dearth of informative analysis available in surveys and textbooks, particularly on Tunisia, Libya, Yemen, Bahrain and Syria.*

*Sexuality and Citizenship Diane Richardson 2017-09-18 Sexual citizenship has become a key concept in the social sciences. It describes the rights and responsibilities of citizens in sexual and intimate life, including debates over equal marriage and women's human rights, as well as shaping thinking about citizenship more generally. But what does it mean in a continually changing political landscape of gender and sexuality? In this timely intervention, Diane Richardson examines the normative underpinnings and varied critiques of sexual citizenship, asking what they mean for its future conceptual and empirical development, as well as for political activism. Clearly written, the book shows how the field of sexuality and citizenship connects to a range of important areas of debate including understandings of nationalism, identity, neoliberalism, equality, governmentality, individualization, colonialism, human rights, globalization and economic justice. Ultimately this book calls for a critical rethink of sexual citizenship. Illustrating her argument with examples drawn from across the globe, Richardson contends that this is essential if scholars want to understand the sexual politics that made the field of sexuality and citizenship studies what it is today, and to enable future analyses of the sexual inequalities that continue to mark the global order.*

*Partizipation von Frauen am Islamismus Hoda Salah 2019-10-05 Hoda Salah untersucht die Beweggründe von Frauen der Muslimbruderschaft, des Salafismus und des Liberalislam, am Islamismus teilzunehmen sowie deren Ziele. Am Beispiel des semisäkularen Ägypten wird gezeigt, dass Themen wie politische Teilhabe, Einflussnahme, Parlamentskandidaturen und Führungspositionen im Staat und*

der Gesellschaft besondere Anliegen von Muslimschwestern, Salafistinnen und Wasataktivistinnen sind. Aktivistinnen kreieren neue Themen wie islamischen Feminismus und islamische Sexualität und verwenden diese gezielt als Mobilisierungspotenzial. Ihre Konflikte mit säkularen Aktivistinnen um Universalismus oder Partikularismus der Menschen- und Frauenrechte werden erklärt. Die Ergebnisse lassen sich teilweise generalisieren und werfen Fragen für den deutschen Diskurs zum Islamismus auf.

*The Difference that Gender Makes to International Peace and Security* Sara E. Davies 2018-10-29 Fifteen years after the adoption of UN Security Council Resolution 1325 which establishes the Women, Peace and Security agenda, there is now a need to assess the impacts of gender equality efforts, and to understand why and how gender equality reforms have advanced to the extent that they have. This book examines how international peace and security is re-envisioned from a gender perspective by mostly focusing on the nuances presented by the Asia Pacific region. It argues that despite the diversity of political, socio-cultural and economic systems in the Asia Pacific, women and girls in the region continue to experience similar forms of insecurities. Several countries in the Asia Pacific have demonstrated relative peace and stability. In addition, women's leadership and participation in peacebuilding are and continue to be increasingly recognized in the region too. However, as the chapters in this book demonstrate, applying a critical gender analysis allows for the interrogation of 'veneers' of political order which can then mask or normalise everyday gendered insecurities. The analysis of country cases such as Myanmar, Cambodia and Fiji underscores a rethinking of the political order in the Asia Pacific which leaves existing gender inequalities intact. The chapters in this book were originally published in a special issue in the *International Feminist Journal of Politics*.

*Reproductive States* Rickie Solinger 2016 This is a collection of case studies that explore when and how half of the twenty most populous countries in the world invented and implemented population policies. It presents analyses of reproductive politics in Brazil, China, Egypt, Germany, India, Iran, Japan, Nigeria, the USSR/Russia, and the United States. The essays focus on the official, organized efforts that states pursued to facilitate state decisions about how many people, and which people, would be born within their borders.

*Handbook on Gender and Violence* Laura J. Shepherd 2019 Containing contributions from leading experts in the field, this Handbook explores the many ways gender and violence interact across different contexts and offers a range of disciplinary perspectives. This comprehensive volume connects micro-level interpersonal violence to macro-level structural forms of violence across three discrete but interrelated sections: concepts, representations, and contexts.

*The Global Turn* Eve Darian-Smith 2017-05-23 Deploying interdisciplinary theoretical perspectives that speak to interconnected global dimensions is critical if one's work is to remain relevant and applicable to the emerging global-scale issues of our time. *The Global Turn* is a guide for students and scholars across all areas of the social sciences and humanities who wish to embark upon global-studies research projects. The authors demonstrate how the global can be studied from a local perspective and vice versa. Global processes manifest at multiple transnational, regional, national, and local levels—interconnected dimensions that are mutually constitutive. This book walks the reader through the steps of thinking like a global scholar in theoretical, methodological, and practical terms, explaining the implications of global perspectives for research design.

*The Egyptians* Patricia Highsmith 2012-07-31 The award-winning journalist and longtime Cairo resident delivers a "meticulous, passionate study" of the ongoing battle for contemporary Egypt (*The Guardian*). On January, 25, 2011, a revolution began in Egypt that succeeded in ousting the country's longtime dictator Hosni Mubarak. In *The Egyptians*, journalist Jack Shenker uncovers the roots of the uprising and explores the country's current state, divided between two irreconcilable political orders. Challenging conventional analyses that depict a battle between Islamists and secular forces, *The Egyptians* illuminates other, equally important fault lines: far-flung communities waging war against transnational corporations, men and women fighting to subvert long-established gender norms, and workers dramatically seizing control of their own factories. Putting the Egyptian revolution in its proper context as an ongoing popular struggle against state authority and economic exclusion, *The Egyptians* explains why

the events since 2011 have proved so threatening to elites both inside Egypt and abroad. As Egypt's rulers seek to eliminate all forms of dissent, seeded within the rebellious politics of Egypt's young generation are big ideas about democracy, sovereignty, social justice, and resistance that could yet change the world. "I started reading this and couldn't stop. It's a remarkable piece of work, and very revealing. A stirring rendition of a people's revolution as the popular forces that Shenker vividly depicts carry forward their many and varied struggles, with radical potential that extends far beyond Egypt."

*Regional Insecurity After the Arab Uprisings* E. Monier 2015-06-11 This book presents an in-depth exploration of the impact of the Arab Uprisings on the relationship between constructions of (in)security, narratives of threat and patterns of socio-political change within the Middle East and North Africa region. It also offers insights into the study of regional security and the operation of threat perceptions.

*Routledge Handbook of Feminist Peace Research* Tarja Väyrynen 2021-03-11 This handbook provides a comprehensive overview of feminist approaches to questions of violence, justice, and peace. The volume argues that critical feminist thinking is necessary to analyse core peace and conflict issues and is fundamental to thinking about solutions to global problems and promoting peaceful conflict transformation. Contributions to the volume consider questions at the intersection of feminism, gender, peace, justice, and violence through interdisciplinary perspectives. The handbook engages with multiple feminisms, diverse policy concerns, and works with diverse theoretical and methodological contributions. The volume covers the gendered nature of five major themes: • Methodologies and genealogies (including theories, concepts, histories, methodologies) • Politics, power, and violence (including the ways in which violence is created, maintained, and reproduced, and the gendered dynamics of its instantiations) • Institutional and societal interventions to promote peace (including those by national, regional, and international organisations, and civil society or informal groups/bodies) • Bodies, sexualities, and health (including sexual health, biopolitics, sexual orientation) • Global inequalities (including climate change, aid, global political economy). This handbook will be of great interest to students of peace and conflict studies, security studies, feminist studies, gender studies, international relations, and politics.

*States of Fragility 2016 Understanding Violence* OECD 2016-11-30 The world is getting more violent, and violence is occurring in surprising places. The number of violent conflicts is decreasing, but conflicts are killing more people: ...

*The Security Archipelago* Paul Amar 2011

*Routledge Handbook of Gender and Security* Caron E. Gentry 2018-08-31 This handbook provides a comprehensive look at the study of gender and security in global politics. The volume is based on the core argument that gender is conceptually necessary to thinking about central questions of security; analytically important for thinking about cause and effect in security; and politically important for considering possibilities of making the world better in the future. Contributions to the volume look at various aspects of studying gender and security through diverse lenses that engage diverse feminisms, with diverse policy concerns, and working with diverse theoretical contributions from scholars of security more broadly. It is grouped into four thematic sections: Gendered approaches to security (including theoretical, conceptual, and methodological approaches); Gendered insecurities in global politics (including the ways insecurity in global politics is distributed and read on the basis of gender); Gendered practices of security (including how policy practice and theory work together, or do not); Gendered security institutions (across a wide variety of spaces and places in global politics). This handbook will be of great interest to students of gender studies, security studies and IR in general.

*The Security Archipelago* Paul Amar 2013-07-26 In *The Security Archipelago*, Paul Amar provides an alternative historical and theoretical framing of the refashioning of free-market states and the rise of humanitarian security regimes in the Global South by examining the pivotal, trendsetting cases of Brazil and Egypt. Addressing gaps in the study of neoliberalism and biopolitics, Amar describes how coercive security operations and cultural rescue campaigns confronting waves of resistance have appropriated

*progressive, antimarket discourses around morality, sexuality, and labor. The products of these struggles—including powerful new police practices, religious politics, sexuality identifications, and gender normativities—have traveled across an archipelago, a metaphorical island chain of what the global security industry calls "hot spots." Homing in on Cairo and Rio de Janeiro, Amar reveals the innovative resistances and unexpected alliances that have coalesced in new polities emerging from the Arab Spring and South America's Pink Tide. These have generated a shared modern governance model that he terms the "human-security state."*

*The Sex Obsession Janet R. Jakobsen 2020-08-25 Offers a way to undo the inextricable American knot of sex, politics, religion, and power American politics are obsessed with sex. Before the first televised presidential debate, John F. Kennedy trailed Richard Nixon in the polls. As Americans tuned in, however, they found Kennedy a younger, more vivacious, and more attractive choice than Nixon. Sexier. The political significance of Kennedy's telegenic sex appeal is now widely accepted – but taking sexual politics seriously is not. Janet R. Jakobsen examines how, for the last several decades, gender and sexuality have reappeared time and again at the center of political life, marked by a series of widely recognized issues and movements – women's liberation and gay liberation in the 1960s and '70s, the AIDS crisis and ACT UP in the '80s and '90s, welfare and immigration "reform" in the '90s, wars claiming to "save women" in the 2000s, and battles over health care in the 2010s, to recent demands for reproductive justice, trans liberation, and the explosive exposures of #MeToo. Religion has been wound up in these political struggles, and blamed for not a little of the resistance to meaningful change in America political life. Jakobsen acknowledges that religion is a force to be reckoned with, but decisively breaks with the common sense that religion and sex are the fixed binary of American political life. She instead follows the kaleidoscopic ways in which sexual politics are embedded in social relations of all kinds – not only the intimate relations of love and family with which gender and sex are routinely associated, but also secularism, freedom, race, disability, capitalism, nation and state, housing and the environment. In the midst of these obsessions, Jakobsen's promiscuous ethical imagination guides us forward. Drawing on examples from collaborative projects among activists, academics and artists, Jakobsen shows that sexual politics can contribute to building justice from the ground up. Gender and sexual relations are practices through which values emerge and communities are made. Sex and desire, gender and embodiment emerge as bases of ethical possibility, breaking political stalemate and opening new possibility.*

*Sextarianism Maya Mikdashi 2022-05-03 The Lebanese state is structured through religious freedom and secular power sharing across sectarian groups. Every sect has specific laws that govern kinship matters like marriage or inheritance. Together with criminal and civil laws, these laws regulate and produce political difference. But whether women or men, Muslims or Christians, queer or straight, all people in Lebanon have one thing in common—they are biopolitical subjects forged through bureaucratic, ideological, and legal techniques of the state. With this book, Maya Mikdashi offers a new way to understand state power, theorizing how sex, sexuality, and sect shape and are shaped by law, secularism, and sovereignty. Drawing on court archives, public records, and ethnography of the Court of Cassation, the highest civil court in Lebanon, Mikdashi shows how political difference is entangled with religious, secular, and sexual difference. She presents state power as inevitably contingent, like the practices of everyday life it engenders, focusing on the regulation of religious conversion, the curation of legal archives, state and parastatal violence, and secular activism. Sextarianism locates state power in the experiences, transitions, uprisings, and violence that people in the Middle East continue to live.*

*The Routledge Handbook of Religion, Gender and Society Caroline Starkey 2021-12-31 In an era which many now recognise as 'post-secular', the role that religions play in shaping gender identities and relationships has been awarded a renewed status in the study of societies and social change. In both the Global South and the Global North, in the 21st century, religiosity is of continuing significance, not only in people's private lives and in the family, but also in the public sphere and with respect to political and legal systems. The Routledge Handbook of Religion, Gender and Society is an outstanding reference source to these key topics, problems and debates in this exciting subject area. Comprising over 40*

chapters by a team of international contributors, the Handbook is divided into three parts: • *Critical debates for religions, gender and society: theories, concepts and methodologies* • *Issues and themes in religions, gender and society* • *Contexts and locations* Within these sections, central issues, debates and problems are examined, including activism, gender analysis, intersectionality and feminism, oppression and liberation, equality, bodies and embodiment, space and place, leadership and authority, diaspora and migration, marriage and the family, generation and aging, health and reproduction, education, violence and conflict, ecology and climate change, and the role of social media. The Routledge Handbook of Religion, Gender and Society is essential reading for students and researchers in religious studies and gender studies. The Handbook will also be very useful for those in related fields, such as cultural studies, area studies, politics, sociology, anthropology and history.

*Sexualities in World Politics* Manuela Lavinás Picq 2015-05-15 As LGBTQ claims acquire global relevance, how do sexual politics impact the study of International Relations? This book argues that LGBTQ perspectives are not only an inherent part of world politics but can also influence IR theory-making. LGBTQ politics have simultaneously gained international prominence in the past decade, achieving significant policy change, and provoked cultural resistance and policy pushbacks. Sexuality politics, more so than gender-based theories, arrived late on the theoretical scene in part because sexuality and gender studies initially highlighted post-structuralist thinking, which was hardly accepted in mainstream political science. This book responds to a call for a more empirically motivated but also critical scholarship on this subject. It offers comparative case-studies from regional, cultural and theoretical peripheries to identify ways of rethinking IR. Further, it aims to add to critical theory, broadening the knowledge about previously unrecognized perspectives in an accessible manner. Being aware of preoccupations with the de-queering, disciplining nature of theory establishment in the social sciences, we critically reconsider IR concepts from a particular LGBTQ vantage point and infuse them with queer thinking. Considering the relative dearth of contemporary mainstream IR-theorizing, authors ask what contribution LGBTQ politics can provide for conceiving the political subject, as well as the international structure in which activism is embedded. This book will be of interest to students and scholars of gender politics, cultural studies and international relations theory.

*Generation und Raum* Söhnke Grothusen 2014-09-29 Die Kategorie des Raums und ihr Einfluss auf generationelle Dynamiken. Die Bezüge zwischen Räumen, Orten und Grenzen als ein fester Bestandteil generationeller Vergemeinschaftung sind vielfältig: Einen intuitiven Eindruck davon geben so unterschiedliche Beispiele wie der »Mythos von Langemarck" als Schnittstelle beider Weltkriege oder das mediale Changieren zwischen den Räumen der Neuen Medien und den konkreten Schauplätzen der arabischen Revolutionen. Dieser Band stellt aus akteurzentrierter Perspektive die Frage, ob und wie durch Konstruktion, Performanz und Aneignung spezifischer Räume und Orte generationelle Deutungsmuster generiert werden. Mit de Certeau soll also der Frage nachgegangen werden, inwiefern generationelle Prozesse dem Raum »eine Richtung geben, ihn verzeitlichen".

*Promoting Democracy, Reinforcing Authoritarianism* Benjamin Schuetze 2019-11-07 A detailed examination of the role of US and European 'democracy promoters' in Jordan based on a diverse range of original source material.

*Peace and Violence in Brazil* Marcos Alan Ferreira 2021-10-28 This edited volume examines how the multiple manifestations of social violence in Brazil impacts the building of a peaceful society. The chapters reflect on the role of state, organized crime and civil society. They provide a unique analysis of how the Brazilian state deals with criminal violence, but also finds challenges to comply with Sustainable Development Goal 16, to interdict police violence, and to provide an efficient gun policy. The book shows the agency of civil society in a violent society, in which NGOs and communities engage in key peace formation action, including advocacy for human rights and promoting arts. The overall aim of this book is to advance the research agenda regarding the intersections between peace, public security, and violence, under the lens of peace studies. In Brazil, the challenges to peace differ markedly from areas in regular conflict.

*Islam in Liberalism* Joseph A. Massad 2015-01-06 Joseph Massad's *Desiring Arabs* (UCP, 2007) was

an intellectual/literary history that sought out links between Orientalism and representations of sex and desire, rebutting in the meantime Western efforts to impose categories of heterosexual/homosexual where (in Islam) no such subjectivities exist. His new book broadens the purview to show us what Islam has become in today's world, attending fully to the multiplication of meanings of Islam." *Islam in Liberalism* is an intellectual/political history, enabling us to understand that history in terms of how Islam operated as a category within western liberalism; another way to phrase this is to say that Massad underscores how the anxieties about what Europe constituted—despotism, intolerance, misogyny, homophobia—have gotten projected onto Islam. It is, he avers, only through this projection that Europe could emerge as democratic, tolerant, gynophilic, and hemophilic in short, Islam-free. But in fact Islam has been there since the birth of Europe. Liberalism has been the weapon of choice since the late 18th century against the internal and external others of Europe. Massad's brilliant critique of anti-Muslim sexual politics in *Desiring Arabs* is now broadened provocatively to include NGOs, international organizations, and therapeutic programs. He moves from consideration of the meanings of democracy (and the ideological assumption that Islam is not compatible with democracy) through chapters on women in Islam, sexuality and/in Islam, psychoanalytic interpretations of Islamic themes, and the more recent development of the idea of Abrahamic religions among those valorizing an inter-faith agenda. Overall, Massad sets this book up as a biting critique of the sort of liberalism Euro-American propagated and brought as good news to an unenlightened Islam.

*Worldwide Perspectives on Lesbians, Gays, and Bisexuals* [3 volumes] Paula Gerber Ph.D. 2021-01-31 This three-volume set is a rich resource for readers in any discipline interested in understanding the global, regional, and domestic experiences of LGB people. This interdisciplinary set makes a vital contribution to understanding how LGB rights are progressing—and in some cases, regressing—around the globe. The three volumes look at the lived experiences of LGB people from varied perspectives and provide comprehensive coverage on a wide variety of topics ranging from LGB youth and LGB aging to the approaches to LGB people of different religions, including Islam, Judaism, and Christianity. Chapters focus on topics including the ongoing criminalization of same-sex sexual conduct and how international human rights law can be used to improve the lives of LGB people. Particular attention is paid to the rights of bisexuals, a group often ignored in works focusing on sexual orientation. Volume 1 focuses on history, politics, and culture relating to LGB people; Volume 2 focuses on the laws—domestic and international—governing LGB people; and Volume 3 provides snapshots of the current state of LGB experience in countries worldwide, presented by geographical region: Europe, the Americas, Africa, the Middle East and the Asia Pacific region. Includes contributions on the experience of LGB people in countries and regions that are extremely hostile to sexual minorities, including Russia, Iran, the Caribbean, Zimbabwe, and Uganda. Considers a multitude of factors that influence LGB people's quality of life, including, health, education, the economy, technology, religion, and the law. Offers comprehensive domestic, regional, and international accounts, serving as a one-stop source for in-depth, quality global research on LGB people. Addresses the intersectionality of discrimination based on sexuality and race, religion, and age.

*Spaces of Security* Mark Maguire 2019-01-22 An ethnographic investigation into the dynamics between space and security in countries around the world It is difficult to imagine two contexts as different as a soccer stadium and a panic room. Yet, they both demonstrate dynamics of the interplay between security and space. This book focuses on the infrastructures of security, considering locations as varied as public entertainment venues to border walls to blast-proof bedrooms. Around the world, experts, organizations, and governments are managing societies in the name of security, while scholars and commentators are writing about surveillance, state violence, and new technologies. Yet in spite of the growing emphasis on security, few truly consider the spatial dimensions of security, and particularly how the relationship between space and security varies across cultures. This volume explores spaces of security not only by attending to how security is produced by and in spaces, but also by emphasizing the ways in which it is constructed in the contemporary landscape. The book explores diverse contexts ranging from biometrics in India to counterterrorism in East Africa to border security in Argentina. The

ethnographic studies demonstrate the power of a spatial lens to highlight aspects of security that otherwise remain hidden, while also adding clarity to an elusive and dangerous way of managing the world.

*Queer in Translation* Evren Savci 2021-01-08 In *Queer in Translation*, Evren Savci analyzes the travel and translation of Western LGBT political terminology to Turkey in order to illuminate how sexual politics have unfolded under Recep Tayyip Erdoğan's AKP government. Under the AKP's neoliberal Islamic regime, Savci shows, there has been a stark shift from a politics of multicultural inclusion to one of securitized authoritarianism. Drawing from ethnographic work with queer activist groups to understand how discourses of sexuality travel and are taken up in political discourse, Savci traces the intersection of queerness, Islam, and neoliberal governance within new and complex regimes of morality. Savci turns to translation as a queer methodology to think Islam and neoliberalism together and to evade the limiting binaries of traditional/modern, authentic/colonial, global/local, and East/West—thereby opening up ways of understanding the social movements and political discourse that coalesce around sexual liberation in ways that do justice to the complexities both of what circulates under the signifier Islam and of sexual political movements in Muslim-majority countries.

*Brokered Subjects* Elizabeth Bernstein 2019-01-01 *Brokered Subjects* digs deep into the accepted narratives of sex trafficking to reveal the troubling assumptions that have shaped both right- and left-wing agendas around sexual violence. Drawing on years of in-depth fieldwork, Elizabeth Bernstein sheds light not only on trafficking but also on the broader structures that meld the ostensible pursuit of liberation with contemporary techniques of power. Rather than any meaningful commitment to the safety of sex workers, Bernstein argues, what lies behind our current vision of trafficking victims is a transnational mix of putatively humanitarian militaristic interventions, feel-good capitalism, and what she terms carceral feminism: a feminism compatible with police batons.

*Gewalt, Krieg und Flucht* Antje Daniel 2020-11-23 Was können feministische Perspektiven für die kritische Erforschung von Sicherheit(spolitiken) leisten? Die AutorInnen zeigen mit theoretischen und empirischen Beiträgen die Stärke und Wichtigkeit einer geschlechtssensiblen Perspektive auf das Thema der Sicherheit, welche auch über die politikwissenschaftliche Debatte hinausreicht. Dabei hinterfragen die Autorinnen tradierte Sicherheitskonzeptionen und erweitern das Verständnis von Krieg, Gewalt und Sicherheit, indem sie die Geschlechterverhältnisse einbeziehen. Besonders die Bedeutung von Ökonomie, Recht und Flucht wird im Zusammenhang von Geschlecht und Sicherheit berücksichtigt. *Das Coming-out der Staaten* Phillip M. Ayoub 2017-09-30 In den letzten zwei Jahrzehnten ist die LGBT-Bewegung (Lesbian, Gay, Bisexual and Transgender) in einer im Vergleich zu anderen Menschenrechtsbewegungen beispiellosen Geschwindigkeit gewachsen. Phillip M. Ayoub zeichnet die jüngere Geschichte dieser transnationalen Bewegung in Europa nach. Er zeigt, wie das »Coming-out« die marginalisierte Gesellschaftsgruppe ins Zentrum der politischen Debatte rückte und ihr zu längst fälligen Rechten verhalf. Neben der Analyse der von der Bewegung vertretenen Normen steht vor allem die Frage im Zentrum, warum die gesellschaftsrechtliche Anerkennung der LGBT-Minderheiten in den jeweiligen Staaten so unterschiedlich verläuft.

*The Pink Line* Mark Gevisser 2020-07-02 *Guardian's Best Paperback of the Month ONE OF THE GUARDIAN'S and FINANCIAL TIMES' BOOKS OF 2020* 'In intimate, often tender prose, Gevisser brings to life the complex movement for queer civil rights and the many people on whom it bears.' Colm Toibin, *Guardian* 'Powerful... meticulously researched' Andrew McMillan, *Observer Book of the Week* Six years in the making, *The Pink Line* follows protagonists from nine countries all over the globe to tell the story of how LGBTQ+ Rights became one of the world's new human rights frontiers in the second decade of the twenty-first century. From refugees in South Africa to activists in Egypt, transgender women in Russia and transitioning teens in the American Mid-West, *The Pink Line* folds intimate and deeply affecting stories of individuals, families and communities into a definitive account of how the world has changed, so dramatically, in just a decade. And in doing so he reveals a troubling new equation that has come in to play: while same-sex marriage and gender transition are now celebrated in some parts of the world, laws to criminalise homosexuality and gender non-conformity have been strengthened in

others. In a work of great scope and wonderful storytelling, this is the groundbreaking, definitive account of how issues of sexuality and gender identity divide and unite the world today.

*Security and Hospitality in Literature and Culture* Jeffrey Clapp 2015-10-05 With contributions from an international array of scholars, this volume opens a dialogue between discourses of security and hospitality in modern and contemporary literature and culture. The chapters in the volume span domestic spaces and detention camps, the experience of migration and the phenomena of tourism, interpersonal exchanges and cross-cultural interventions. The volume explores the multifarious ways in which subjects, citizens, communities, and states negotiate the mutual, and potentially exclusive, desires to secure themselves and offer hospitality to others. From the individual's telephone and data, to the threshold of the family home, to the borders of the nation, sites of securitization confound hospitality's injunction to openness, gifting, and refuge. In demonstrating an interrelation between ongoing discussions of hospitality and the intensifying attention to security, the book engages with a range of literary, cultural, and geopolitical contexts, drawing on work from other disciplines, including philosophy, political science, and sociology. Further, it defines a new interdisciplinary area of inquiry that resonates with current academic interests in world literature, transnationalism, and cosmopolitanism.

*The Sexual and Gender Politics of Sport Mega-Events* Heather Sykes 2016-12-08 This challenging new study examines gender and sexuality in relation to the 'roving colonialism' of sport mega-events. Built around four case studies in postcolonial and settler colonial contexts—the Olympics in Vancouver, London and Sochi and soccer fans in the Egyptian revolution—the book examines sporting 'homonationalism' and anti-colonial resistance. The first part discusses different moments of 'homonationalism' in sport. The second part explores how indigenous and anti-colonial protests against mega-sport events lead to different views about gender and sexuality politics in sport. It offers a critical counter-narrative to the view that gay and lesbian inclusion in global sporting events is simply a matter of universal human rights. The book calls for LGBT social movements in sport to move away from complicity with neoliberalism, nationalism and colonial-racial logics, particularly Islamophobia, toward a decolonial politics of solidarity. Theoretically sophisticated and empirically grounded, this book draws together important threads in the contemporary study of sport to illuminate the relationship between sport and wider society. It will be fascinating reading for any student or researcher interested in the sociology of sport, Olympic studies, gender and sexuality studies, postcolonial studies, indigenous studies, settler colonial studies or the politics of race and inclusion.

*Die pinke Linie* Mark Gevisser 2021-04-18 Für wie viele Geschlechter sollte es Toiletten geben? Manche sehen in dieser Frage nur einen Karnevalskalauer, andere nutzen sie zur Inszenierung eines Kulturkampfes. Viele Menschen erinnert sie jedoch schlicht an tagtäglich erfahrene Demütigungen. Über Themen der Geschlechteridentität und der sexuellen Selbstbestimmung wurde in jüngster Zeit weltweit erbittert gestritten. Und während in einigen Ländern erhebliche Liberalisierungsfortschritte zu verzeichnen sind, schüren in anderen mächtige politische Akteure gezielt Stimmung gegen Lesben, Schwule und Transpersonen. Mark Gevisser zeichnet diese neue Konfliktlinie – die pinke Linie, wie er sie nennt – rund um den Globus nach. Er schildert, wie queere Paare und Familien für rechtliche Gleichstellung kämpfen und zu welchen Strategien Aktivist:innen greifen, um tradierte Geschlechtervorstellungen in ihren lokalen Kontexten zu überwinden. Er spricht mit von Diskriminierung Betroffenen in Kenia, Ägypten und den USA: Welche Probleme stellen sich ihnen im Alltag? Welche Pronomen verwenden sie für sich und warum? Welche Ziele verfolgen Dritte, die sich ihrer Sache annehmen? Einfühlsam, klug und in bestechender Prosa kombiniert Gevisser Reportage und Analyse und liefert ein ebenso faktenreiches wie bewegendes Standardwerk zu einem der prägenden Themen unserer Gegenwart.

*Writing Beyond the State* Alexandra S. Moore 2020-03-14 This book investigates the imaginative capacities of literature, art and culture as sites for reimagining human rights, addressing deep historical and structural forms of belonging and unbelonging; the rise of xenophobia, neoliberal governance, and securitization that result in the purposeful precaritization of marginalized populations; ecological damage that threatens us all, yet the burdens of which are distributed unequally; and the possibility of decolonial

and posthuman approaches to rights discourses. The book starts from the premise that there are deep-seated limits to the political possibilities of state and individual sovereignty in terms of protecting human rights around the world. The essays explore how different forms, materials, perspectives, and aesthetics can help reveal the limits of normative human rights and contribute to the cultural production of new human rights imaginaries beyond the borders of state and self.

*Routledge Handbook of Queer Development Studies* Corinne L. Mason 2018-01-29 Around the world lesbian, gay, bisexual, trans, intersex and queer individuals are subjected to violence and intimidation based on their real or perceived sexuality, gender identity or expression. With those most at risk of human rights violations often living in areas of low economic development, questions of sexuality, gender identity, and expression have become a significant area of research within the field of development studies. The *Routledge Handbook of Queer Development Studies* is the first full length study of queer development studies, collecting the very best in research from around the world. Topics for discussion include: Queering policy and planning in development Queer development critique and queer critiques of development Global LGBTIQ rights Queer social movements and mobilizations At a time when development and human rights organizations such as the World Bank, Office of the UN Secretary General and Human Rights Watch are placing increasing importance on global LGBT rights, the *Routledge Handbook of Queer Development Studies* is an essential guide for scholars, upper level students, practitioners and anyone with an interest in global sexualities, gender identities, and expressions.

*Cultural Politics of Gender and Sexuality in Contemporary Asia* Tiantian Zheng 2017-07-31 In globalizing Asia, sexual mores and gender roles are in constant flux. How have economic shifts and social changes altered and reconfigured the cultural meanings of gender and sexuality in the region? How have the changing political economy and social milieu influenced and shaped the inner workings and micro-politics of family structure, gender relationships, intimate romance, transactional sex, and sexual behaviors? This volume offers up-to-date, grounded, critical analysis of the complex intersections of gender, sexuality, and political economy across a diverse array of Asian societies: China, Japan, Cambodia, Vietnam, India, Pakistan, Hong Kong, Thailand, and Taiwan. Based on intense ethnographic fieldwork, the chapters disentangle the ways in which gendered and sexual experiences are impinged upon by state policies, economic realities, cultural ideologies, and social hierarchies. Whether highlighting intimate relationships between elite businessmen and their mistresses in China; nightclub performances by Thai men in Bangkok; single women's views of romance, motherhood, and marriage in Hong Kong, Shanghai, and Tokyo; or male same-sex relationships in Pakistan—each chapter centers around the stories of the gendered subjects themselves and how they are shaped by outside forces. Taken together they provide a provocative entrée into the cultural politics of gender and sexuality in Asia. By foregrounding cross-cultural ethnographic research, this volume sheds light on how configurations of gender and sexuality are constituted, negotiated, contested, transformed, and at times, perpetuated and reproduced in private, intimate experiences. It will be of particular interest to students and scholars in anthropology, sociology, political science, and women's and LGBTQ studies.

*An Imperialist Love Story* Amira Jarmakani 2015-07-31 A curious figure stalks the pages of a distinct subset of mass-market romance novels, aptly called "desert romances." Animalistic yet sensitive, dark and attractive, the desert prince or sheikh emanates manliness and raw, sexual power. In the years since September 11, 2001, the sheikh character has steadily risen in popularity in romance novels, even while depictions of Arab masculinity as backward and violent in nature have dominated the cultural landscape. *An Imperialist Love Story* contributes to the broader conversation about the legacy of orientalist representations of Arabs in Western popular culture. Combining close readings of novels, discursive analysis of blogs and forums, and interviews with authors, Jarmakani explores popular investments in the war on terror by examining the collisions between fantasy and reality in desert romances. Focusing on issues of security, freedom, and liberal multiculturalism, she foregrounds the role that desire plays in contemporary formations of U.S. imperialism. Drawing on transnational feminist theory and cultural studies, *An Imperialist Love Story* offers a radical reinterpretation of the war on terror,

demonstrating romance to be a powerful framework for understanding how it works, and how it perseveres.

*Vulnerability and Security in Human Rights Literature and Visual Culture* Alexandra Schultheis Moore 2015-10-23 This book responds to the failures of human rights—the way its institutions and norms reproduce geopolitical imbalances and social exclusions—through an analysis of how literary and visual culture can make visible human rights claims that are foreclosed in official discourses. Moore draws on theories of vulnerability, precarity, and dispossession to argue for the necessity of recognizing the embodied and material contexts of human rights subjects. At the same time, she demonstrates how these theories run the risk of reproducing the structural imbalances that lie at the core of critiques of human rights. Pairing conventional human rights genres—legal instruments, human rights reports, reportage, and humanitarian campaigns—with literary and visual culture, Moore develops a transnational feminist reading praxis of five sites of rights and their violation over the past fifty years: UN human rights instruments and child soldiers in Nigerian literature; human rights reporting and novels that address state-sponsored ethnocide in Zimbabwe; the international humanitarian campaigns and disaster capitalism in fiction of Bhopal, India; the work of Médecins Sans Frontières in the Sahel, Afghanistan, Democratic Republic of Congo, and Burma as represented in various media campaigns and in photo/graphic narratives; and, finally, the human rights campaigns, fiction, and film that have brought Indonesia's history of anti-leftist violence into contemporary public debate. These case studies underscore how human rights norms are always subject to conditions of imaginative representation, and how literature and visual culture participate in that cultural imaginary. Expanding feminist theories of embodied and imposed vulnerability, Moore demonstrates the importance of situating human rights violations not only in the context of neo-liberal development policies but also in relation to the growth of security networks that serve the nation-state often at the expense of the security of specific subjects and populations. In place of conventional victims and agents, the intersection of vulnerability and human rights opens up readings of human rights claims and suffering that are, at once, embodied and shareable, yet which run the risk of cooptation by security rhetoric.
